

Gaza and Genocide

Israel's military actions in Gaza have claimed thousands of Palestinian lives over the years. Between Jan. 1, 2008 and Sept. 19, 2023, more than 5,365 Palestinians have been killed, including 1,206 children. After Israel's previous attacks on Gaza, there were promises that the blockade would be lessened or ended.

Home FAQs About

Information

Founded in honour of an individual characterized by dedication, care, and compassion, the Arab Academy Of Science And Technology (AAST), known as Gaza-donation, is a registered Egyptian charity. Our mandate is to provide people affected by poverty, disaster and/or conflict with humanitarian aid —both on a domestic and global scale. Gaza-donation was established in 2023 by AAST Students, after the tragic loss of his closest friend that same year. AAST exemplified a rare spirit, extending there helping hand to those within there proximity and far beyond. Our guiding principle, getting the Right Aid to the Right People at the Right Time. It propels our mission to deliver maximum aid impact with remarkable operational efficiency. Rooted in the cornerstones of emergency response, AAST provides swift, pivotal intervention during critical moments of disaster and turmoil. Our portfolio includes six core Emergency Programs—Water, Food, RescUAV, Flood, Medical, and Shelter. Each are designed with a scalable and modular architecture. This adaptability ensures seamless integration, whether deployed nationally or internationally, tailored to the specific contours of the crisis

You can actively support our mission by volunteering or by making a meaningful donation. You can help make a difference in the lives of people affected by poverty, disaster and/or conflict.
